

Global Nutrition Report Independent Expert Group

Declaration of Interests

Since its inception in 2014, the Global Nutrition Report has been funded by multiple public and private donor institutions¹; with no single funder having the ability to influence the content and analysis contained in the report. To further protect the independence of this content, all members of the Independent Expert Group (IEG) are required to declare any current financial, professional or other interest that may influence their ability to be impartial when serving on the IEG. This includes any interest that may affect, or may reasonably be perceived to affect, your objectivity and independence. For example, the organisation you work for, or organisations for whom you consult, may be perceived to affect your partiality since you have a financial relationship with them. Being a member of an advisory group or board may have the same affect. Since these interests may, even if unconsciously, influence your perspectives when serving on the IEG, they should be declared. Please be sure to declare all current financial and non-financial relationships with the private sector, even if short term.

We are only requesting declaration of current relationships. If, subsequent to your declaration in this form, new interests that may affect your participation in the IEG arise during your term, it is your duty to disclose them to the IEG Co-chairs in the first instance in order for them to determine an appropriate process with which to handle them, and for you to update this form as required.

Duality of interests frequently exist and while not always conflicting, they should be declared in the interest of transparency. However should the IEG Co-chairs, in consultation with the Global Nutrition Report Stakeholder Group, determine an interest of an IEG member to be counter to those of the Global Nutrition Report, you will be requested to stand down from the IEG.

Declaration

I certify that I have fully read and understood this form, and that the information I have presented here is complete and accurate to the best of my knowledge.
